

AUGENSOL™
THE HD PHOTOCHROMIC

HD LENSES
JUST GOT BETTER

Introducing AugenSol™ 1.50 Photochromic, a unique combination of Augen High Definition lens design technology and the most advanced 1.50 photochromic material available today.

- Gets dark exceptionally fast outdoors - nearly sunlenses dark in just 12 seconds
- Provides 100% UVA / UVB protection on both front and back lens surfaces
- Extra-dark tint rivals the light protection offered by sunlenses
- Fades quickly to barely noticeable tint indoors for clear, translucent lenses

AVAILABLE IN:

- *HD Single Vision*
- *Trinity® 13/17 Progressive*
- *Bifocal Flat Top 28*
