DYNAMIC DESIGN TECHNOLOGY
with memory material

“The challenge for our designers was to engineer a frame that would stay on a child's face, even when playing or running, and would be light and comfortable for all-day wear.”

ERGONOMIC DESIGN TECHNOLOGY

Designed to comfortably fit 97.5% of children between the ages of 6 and 18.

HIGH PERFORMANCE, LIGHT WEIGHT

Constructed using the lightest engineered plastic in existence, ensuring all-day wearer comfort.

GRIP™ TEMPLES AND NOSEPADS

Grip temples and nose pads that provide a soft touch when in contact with skin, yet resist perspiration, heat, water, oil and chemicals.

FDA & EUROPEAN UNION APPROVED MATERIALS

Materials used to construct **vigeo*** frames have been approved for prolonged contact with food and/or skin.
